

Sinclair Broadcasting's decision to air the anti-Kerry 'film' and force all of their affiliates to do so is scandalous. This decision is not serving the community or our democracy. If CBS announced that two days before the election that they were going to air Michael Moore's new film and force all their affiliates to pre-empt their programming to do so there would be hell to pay. I believe the FCC should pull Sinclair's permit. They are not acting in good faith.
